

WWCH July 2019 Toy of the Month

Peg Game

Instructions

Please remember to work safely.

This is one way to make the Peg Game. You may have to adapt to the tooling you have available to you. Always use the tools and procedures that make the most sense to you.

1. Make a template from the attached full size pattern. 1/8" scrap or old file folders are a couple of materials you could use.
2. You'll need a stock of 6 1/2" long by 5 1/2" high by 1 1/2" width. It's designed to be made from a 2X6, but any sizable piece of stock will do.
3. Use the template to outline the Peg Game on the material. Drill 1/4" holes to accept the pegs on the template.
4. I'm using a scroll saw. Use this or a band saw to cut just outside the template pattern lines for the Peg Game.
5. Sand to the lines.
6. Round the edges with a sander or round over bit. Up to a 1/4 radius round over bit can be used for this step.
7. Sand to 220 grit. The objective here is to provide a smooth, comfortable, splinter-free toy for small hands.
8. Wipe all surfaces and see if any areas need more sanding. Repeat as needed.
9. Leave with no finish to allow for customization of a paint job by child. Otherwise, use beeswax or other approved finish.
10. Keep the best Peg Game for yourself or your favorite child and turn the rest in at a future meeting (and for solving the game, see: <https://www.wikihow.com/Win-the-Peg-Game>).

We at the Toy Group of the WWCH would like to thank you for participating in our toy making charitable activity. These toys will bring smiles to the less privileged children of our area.

Peg Game Plan – To Scale
